

On June 9, 2023, Student Theoretical and Practical Conference was organized by University Geomedi. Students presented reports not only from University Geomedi, but also from Ivane Javakhishvili Tbilisi State University and International Black Sea University. After the interesting and diverse presentations, a discussion was held around the topics discussed. At the end

of the conference, the jury evaluated the reports and determined the winners:

I place - Vinod Meempat Nithya (Faculty of Medicine, III year student, supervisor – Elene Asanidze)

II place – Nini Abesadze (Faculty of Dentistry, III year student, supervisor - Mariam Kalandadze)

III place – Nino Janelidze (Faculty of Medicine, IV year student. Ivane Javakhishvili Tbilisi State University)

The Sympathy of the jury – Ani Khvichia (Faculty of Physical Medicine and Rehabilitation, III year student, supervisor –Pavle Kasradze)

Participants were awarded certificates and the winners were awarded scholarships. All reports will be published in the university's Student Conference Proceedings.

On June 15, an open lectures was held for students of the Faculty of Physical Medicine and Rehabilitation on the topic: "Post-stroke rehabilitation" and "Modern approaches to rehabilitation in the treatment of injuries." The lecture was led by Pavle Kasradze, Professor at the University Geomedi, and Jarji Buzariashvili - Doctor of Rehabilitation at the Geomedi Rehabilitation Clinic. During the lecture, Professor Pavle Kasradze spoke about the organization of post-stroke rehabilitation services and rehabilitation treatment. Also, he presented the main directions and recommendations of the guideline. Jarji Buzariashvili discussed the modern approaches to the management of traumatic injuries.

An interesting discussion took place at the end of the lecture.

On May 25, a public lecture on "Modern approaches in the treatment of diseases of the oral mucosa" was held for high-year students of the Faculty of Dentistry of University Geomedi. Nino Japaridze - associate professor of University Geomedi, head of the program of the Faculty of Dentistry conducted the lecture. During the lecture, she discussed the proven and implemented latest methods of treatment of diseases of the oral mucosa, about programmatic and non-programmatic interesting clinical cases.

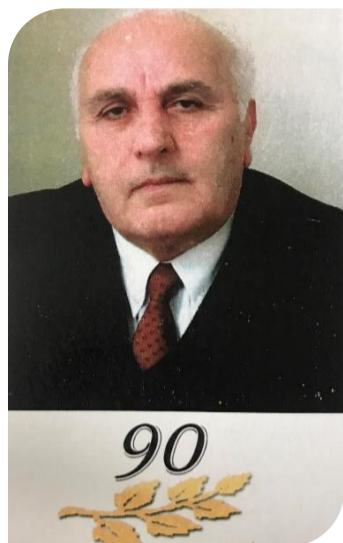

On June 16, another lecture and "Hands on" course was held by Nino Japaridze on the topic "Aesthetic restoration of frontal teeth - veneers; Contemporary Approaches in Artistic Restoration" in the Laboratory of Therapeutic Dentistry at University Geomedi. At the end of the lectures, the attendees expressed their opinions and took place an interesting discussion.

With the support of the University Geomedi and the National Olympic Committee of Georgia, on June 9-22, 2023, Giorgi Kekelia, a 3rd-year student of physical medicine and rehabilitation attended the 63rd International Session of Young Olympian Ambassadors in Olympia, Greece. During the session, he was actively involved in all social, cultural, and sports events. After the end of the session, the president of the International Olympic Academy - Isidoros Kouvelos, presented Giorgi Kekelia with a diploma.

University Geomegy congratulates Professor Durmishkhan Chitaishvili on his 90th birthday

Durmishkhan Chitashvili, doctor of biological sciences, professor, academician of the Academy of Ecological Sciences, honored sports worker, knight of the Order of Honor, turned 90 years old.

His whole way of life was related to raising young people, standing by them, improving their intelligence, faith and future life. In the seventies of the 20th century, both abroad and in the Soviet Union, during training, almost no attention was paid to the athlete's health, the compatibility of physical training and body data. As a result of physical overload, too many athletes got sick or died - that's why Mr. Durmishkhani's main research interest was sports physiology, In order to investigate and determine from the point of view of health and body functioning, with what specificity and what kind of load can be exercised, so that the athletes achieve success without damaging the body.

Many athletes have maintained their health as a result of Durmishkhan Chitaishvili's scientific research and recommendations, not only in Georgia, but everywhere where his scientific findings and recommendations have been implemented in the training of athletes.

The young generation should know who raised us, who served Georgia and the world. With his scientific works, he made a great contribution to the development of sports, to the physical education of athletes and young people, to their training.

We congratulate Mr. Durmishkhan on his 90th birthday and wish him health and longevity.

On May 3, Giovanni Roviello, Professor of the Italian National Council for Research (CNR) visited University Geomegy and held a public lecture on the topic "Exploring natural compounds in food as Anticancer treatment: curcumin encapsulation in delivery systems on L-tryptophan amino acid". The working language was English. The students and academic and invited staff attended the lecture.

The lecture caused great interest in the audience and an interesting discussion was held. Within the framework of the visit, joint projects with educational and scientific directions were planned between the Italian National Council for Research and the University Geomegy.

On May 5, 2023, a public lecture on "Organizational communication and human capital" was held at the university conference hall. The speaker was the Dean of the Faculty of Health Economics and Management, Professor - Dimitri Kobakhidze. He discussed important issues: communication and its main elements, organizational formal and informal communications, and human capital. Finally, he talked about the importance of properly managed human capital and proper communications in planning corporate progress and achieving set goals. Representatives of the university administration attended the lecture.

Uzef Lakdawala Salimbhai, a graduate of the one-step educational program of medicine donated English books to the library.

„ Honestly, it's hard, to sum up six years of a marvelous journey in just a few words. As a graduate of this university, I am eternally grateful for the vast amount of knowledge and learning experiences I have gained here. Every single person that contributed to our learning experience is a gem indeed. I will miss this place. University Geomegy will always hold a great place in my life. Thank you."

Uzef Lakdawala Salimbhai – graduate of Faculty of Medicine.

Visiting the monuments of Georgian architecture

On June 17, 2023, the staff of University Geomegy visited the monuments of Georgian architecture: the monastery complex of the village of Kintsvisi, Urbnisi Church, and an early 7th-century Georgian church - Ateni Sioni. The event was full of emotions.
