

The 3rd international Symposium "Experimental and Clinical Medicine 2021"

On October 4-6, 2021, an important scientific event, the Third International Symposium "Experimental and Clinical Medicine 2021" was organized by University Geomedi. Despite the pandemic, the delegates from several top Universities around the world were presented at the symposium.

The event was held in Kakheti, at the hotel "Ambassador Kachreti". The academic staff and students of the University Geomedi were invited and

participated in the symposium. The researchers and Germany, Italy, Great Britain, Canada, Malaysia, medicine. The professors and researchers from the foreign colleagues as well.

An introductory meeting was also held within educational programs, modern methods of medical the role of internationalization in higher education.

It should be noted that, with this event, the meet world-class researchers, ask them interesting of a large scientific event, which will further increase the Third International Symposium, the University once again proudly represented the country and itself in the international scientific arena. Foreign professors shared their impressions:

professors from the world's leading Universities of India, and Nepal presented important achievements in University Geomedi shared their scientific findings with

the symposium. The participants discussed the teaching, the importance of science-based teaching, and

University gave its students a unique opportunity to questions and participate in a discussion and become part their motivation to study and get involved in science. With

Technical University of Munich, Dean of the Faculty of Medicine, Professor **Peter Henningsen**: "I was invited by University Geomedi to the Third International Scientific Symposium. The symposium was very interesting. I am happy to be a part of this activity too. I am in Georgia for the fourth time. I learned about this country 6 years ago. I am fascinated by Georgia and this university. "

University of Bamberg, Professor **Claus-Christian Carbon**: "I really liked this conference. It really is an international symposium. The speakers presented topical reports. In addition, it is very important that students become part of the scientific world through such events. "

Technical University of Munich, Professor **Stefan Burdach**: "It is very interesting for me to participate in an international symposium. I am glad that I have made some contribution to the development of your students' future. In general, the combination of science and clinical teaching is very important for better treatment of patients. Geomedi is on this path and this is the strength of the university. "

On December 16, 2021, Student Theoretical and Practical online Conference on the topic: "Modern issues in Medicine and Management" was organized by the University Geomedi. The Rector of the University, Professor Marina Pirtskhalava addressed the students in her opening speech. The Jury members evaluated the reports and determined the following winners:

I place – Nana Tevdorasvili (Faculty of Dentistry, supervisor **Mariam Kalandadze**)

II place – Nino Tughushi (Faculty of Dentistry, supervisor **Tinatin Gagoshidze**)

III place – Ia khupatsaria (Faculty of Dentistry, supervisor **Giorgi Modebadze**)

The Sympathy of the jury – Veriko Guliashvili (Faculty of Physical Medicine and Rehabilitation, supervisor **Jarji Buzariashvili**)

Participants were awarded certificates and reports will be published in the University's Student Conference proceedings. The winner students were awarded scholarships.

On December 17, 2021, Scientific-Practical Conference for Professors on the topic: "Modern issues in Medicine and Management" was held. The researchers and professors from the University presented their researches and reports. All reports will be published in the University's Conference Proceedings.

On December 10, 2021, a seminar on "Towards Successful Scientific Research" was held at University Geomedi. The speakers were Assistant Professor Arian Matin and Associate Professor Tornike Khoshtaria. They discussed the following issues: How to plan and conduct successful scientific research and how to get published in a highly-rated, international journal. The seminar was conducted in English in a live and online format.

The second edition of Professor Teimuraz Tavkheldidze's book "General Pathology" has been published. The book reviews the issues of general pathological anatomy and general pathological physiology. The textbook was printed by University Geomedi. The book is intended for medical students and those interested in pathology. It is available at the University Library.

On November 19, 2021, Professor Revaz Lortkipanidze conducted a seminar on the topic: “Physics in Economics – for the State Thinking of the Modern Healthcare Business”. He discussed:

- The processes of information exchange in the electronic age and the ways for its protection
- The causes of the shadow economy and the optimization of managerial costs with network technologies
- Strategic business technologies and their mechanisms in economics

The seminar was conducted in a live and online format. After the presentation, a discussion was held.

On November 11, 2021, the Student Relations Office and the Faculty of Healthcare Economics and Management organized an online meeting with the successful alumni of the Teaching University Geomedi. Graduates, Beka Peradze, who is the Business Development Manager and the Director of the Laboratory Department at the company “Tbilisi Medici” and Nino Jibladze, Quality Assurance and Patient Safety Specialist at JSC “Evex Hospitals” shared their success stories with the students of Faculty of Healthcare Economics and Management. The graduates talked about how the knowledge, received at Geomedi helped them achieve their goals in career advancement. They also informed students about the ongoing vacancies in their company. At the end of the meeting, graduates answered students’ questions.

On October 29, 2021, a seminar “How to use electronic databases” was held at the initiative of the library for the professors and students. The topic was presented by the Deputy Director of the University Library-Nana Tsertsvadze. She spoke about the ways how to find and use materials in EBSCO and ELSEVIER databases in the field of medicine. The seminar was held at the University Conference Hall and also in an online format.

On October 22, 2021, a scientific seminar on the topic: “Information Technologies in Science” was held at the Teaching University Geomedi. The speaker was Tamar Khakhutashvili- President of the “Association for Science”. She discussed the planning and implementation of activities required for indexing a scientific journal in international scientific databases. A spirited discussion was held at the end of the seminar.

On October 15, 2021, as part of the Project Gimnasioni, an online presentation “Humans and Nature” was conducted at Teaching University Geomedi by the student of medical faculty- Niko Kadzania. At the presentation, he discussed medicine in ancient Georgia, the art of medicine preparation, folk remedies and the use of natural resources in medicine.

On November 12, 2021, Pankil Naimeshkumar Parikh, a student of the Faculty of Medicine, gave an online presentation on the topic: Sushruta: Father of Indian Medicine and Plastic Surgery as part of the project “Gimnasioni” seminars. He discussed surgical instruments, procedures, types of surgery and medicine, and the Indian medical system in general as described in the ancient Indian medical Sanskrit text “Sushruta Samhita”.

University professors and students attended the event. An interesting discussion was held at the end of the presentation.

In 2015, I was in the first batch which came to University Geomedi to study an MD Program. During studying here, I never felt far from my own country. Staff and lecturers are very friendly and helpful. They support the students in every step during the studying procedure and provide all kinds of information.

University Geomedi provides Interactive lectures, seminars, laboratory teaching, participation in scientific research and practice. Students have the opportunity to learn in a clinical environment. A Simulation Medicine Clinic is equipped with relevant teaching materials: simulation models, medical instruments, etc. Clinical rotations are held regularly in the best and highly reputed clinics of Georgia under the guidance of highly experienced doctors.

University organizes different kinds of cultural activities and ensures students’ active involvement. The library is an integral part of the university, providing students with academic resources in printed or electronic form. Noteworthy are kind librarians who are always ready to help the student.

I feel lucky to be a part of the Geomedi family. I cannot describe in words what Geomedi meant to me. The journey from a student to a doctor was not easy but not hard also because of University Geomedi.

Graduate of University Geomedi
Gaurav Bhati

Diwali-the festival of light is one of the most important religious holidays in India. Diwali symbolizes the spiritual "victory of light over darkness, good over evil, and knowledge over ignorance". Students celebrate this holiday together every year. At the event dedicated to this day, Indian and Georgian students represent their countries’ culture, traditional dances, and songs. This year, students celebrated Diwali on November 4th.
